

# Specialist hand tools for HGV (Heavy Goods Vehicle) tire maintenance

# Kit 800204

The American "Heavy Duty" tools from KEN TOOL have been specially designed and manufactured to provide professionals working with HGV, agricultural and industrial tires an effective and reliable product.

The range includes particularly ingenious tools to help solve any problem relating to tubeless tire removal and replacement, from light vehicles all the way up to HGVs.

With their unique designs and functions, KEN TOOL offers a comprehensive range of ergonomic hand tools. This type of tool, specially made for manual use, provides effective results under any circumstances. These tools are especially recommended for use in addition to electrical or hydraulic tools in truck or vehicle maintenance garages.

The high quality of the design and manufacture has ensured our reputation in the USA for over 90 years.
